Several regulatory and control orders have been issued to check the rise in the prices of foodgrains.

(*c*) Mysore State is deficit in rice and was traditionally importing rice from Andhra Pradesh. Owing to the restrictions placed on the movement of Rice from Andhra Pradesh to Mysore State and generally on the movement of rice from one State to another except on State to State account adequate quantities of rice could not be secured for the State during the latter half of last year and adequate quantities of rice could dot therefore be given to the various Districts.
